

Minnesota DHIA News

A PUBLICATION OF MINNESOTA DHIA

Volume 24 Issue 1

JANUARY 2024

Winter Member Meetings

Five member meetings (in place of district meetings) will be held in February. Dates and speakers will be forthcoming. Please check our website (www.mndhia.org/news) or Facebook page (www.facebook.com/MinnesotaDHIA) for information and registration as it becomes available.

As in past years, 75-minute meetings will be held virtually using Zoom (login support available). Different speakers and topics will be featured at each—attend one or all five!

Agenda to include:

- Short business meeting: Delegate & director nominations; resolutions from the floor; new products and activities at MN DHIA

More robust herd insights available with HerdHQ

Last month, we talked about HerdHQ, a new suite of online herd management tools for herd owners & managers, and their consultants. Specifically, we covered the generalities of the HerdHQ tools, and took a deeper look at CowCompass and KeepOrBeef. To catch up on those topics, refer back to the December *Minnesota DHIA News* or see our HerdHQ info on our website: www.mndhia.org/HerdHQ.

What is HerdHQ?

HerdHQ is available to ALL herds processing with DRMS. However, more frequent data input is a feature specifically available for DART users.

What makes HerdHQ unique?

- Easy to set up for herd owners managers with **no need for special programming and software**
- Pre-designed reports allow for easy modification **on your own time and without external support**
- Input data comes from either your test day results or daily DartSync upload (DART users)
- Fast insights and decision making!

Minnesota DHIA is working with processing center, DRMS, to fine-tune knowledge and training around HerdHQ for dairy producers and consultants—and we're learning too! Recently announced: **HerdHQ is now available free during January 2024; plus, member accounts will be given a 30-day free trial** for each of the 6 tools starting February 1st. Each tool's trial period may be initiated separately. Ongoing pricing for HerdHQ will be forthcoming.

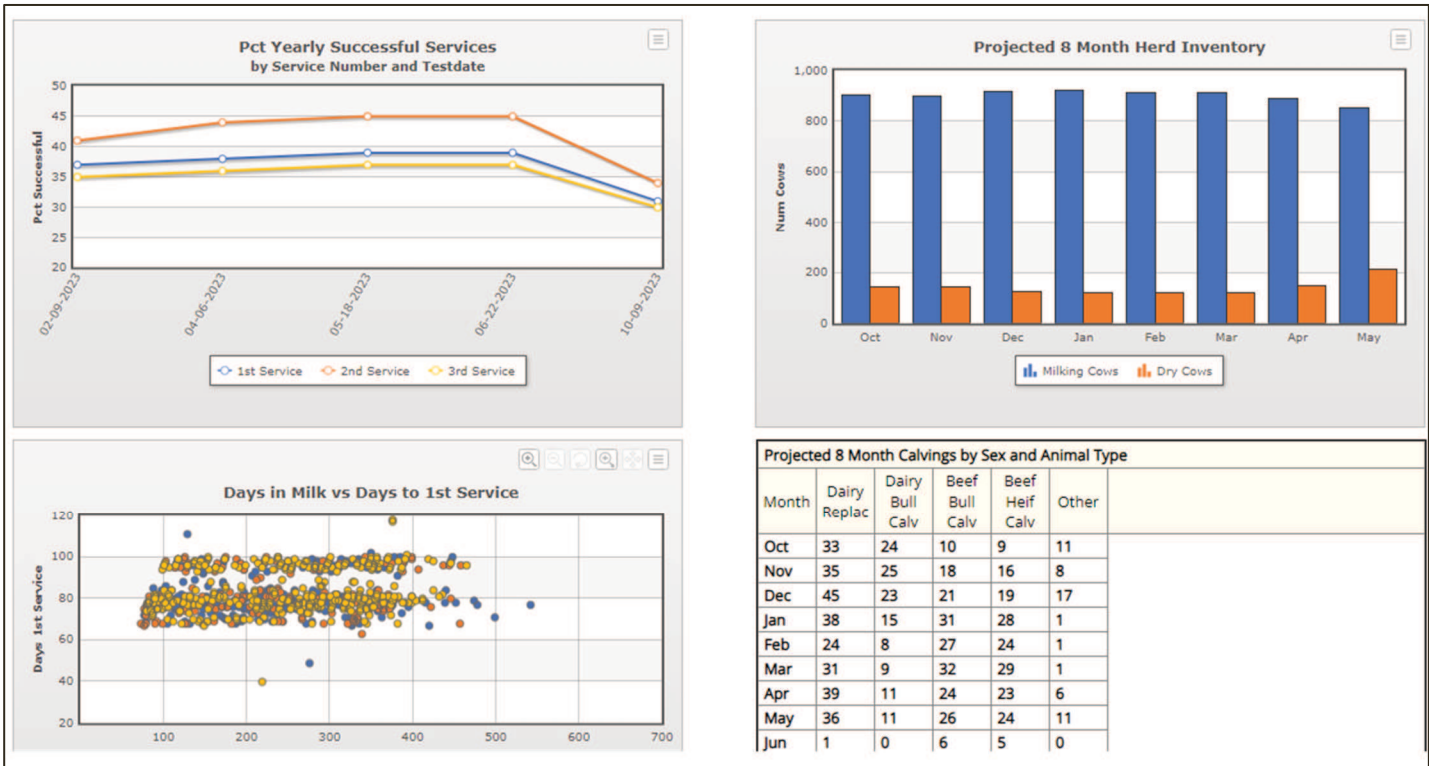

Be an early adopter! Join Minnesota DHIA and our DRMS partners for a **free HerdHQ test drive**. Please email Amy Loeschke at AmyL@mndhia.org for more info and to get started.

In this month's *Minnesota DHIA News*, read on for an in-depth look at **DairyDepot and HeiferHub**. Stay tuned for our February *Minnesota DHIA News* for features on ActivityAlerts and MilkMetrics.

(continued on Page 2)

DairyDepot from HerdHQ

Build your own personalized dashboard from over 100 new tables, charts, and graphs to monitor herd performance across a variety of herd management areas (example image below). **View historic trends and current performance** of your herd beyond the presets available in DART. Includes several click-able grids and graphs to view individual cow data.

(continued on Page 3)

Transferring in New Cows?

Our data handling systems make this process easy. No keying in lengthy REG or TAG numbers, pedigrees, and historical events.

Have these 2 items available for your field tech on sample day:

- the 8-digit hercode from her original herd, and
- her permanent ID (Index or BarnName).

For herds with software, cows that originated in another Minnesota DHIA herd can be transferred immediately.

Contact Alicia Vogl (AliciaV@mndhia.org or 763-682-1091 ext. 36)

HeiferHub from HerdHQ

Use your breeding, culling, and calving performance to **project inventories of future heifer replacements under various semen usage scenarios**. Then, input your market prices for heifers, dairy bull calves, and beef-on-dairy bull calves plus semen cost to **compute profit scenarios from your semen usage** (example below). Use HeiferHub's flexibility to adjust desired outcomes and make semen purchase decisions with confidence. Both 9-month and 30-month projected heifer inventories are calculated. Monitor recent weeks and months to see whether your herd is on track to achieve breeding and replacement goals.

Breeding Month :	12/2023	
# Cows to bred this Month :	100	
# Breedings to Sexed semen :	13	?
# Breedings to Conv semen :	21	?
# Breedings to Beef semen :	66	?
# Heifers to bred this Month :	80	
# Breedings to Sexed semen :	45	?
# Breedings to Conv semen :	35	?
# Breedings to Beef semen :	0	?
# Total Breedings resulting in Dairy Replacement Calves :	76	?
# Total Breedings resulting in Dairy Bull Calves :	38	?
# Total Breedings resulting in Beef Calves :	66	?
# Dairy Replacement Pregnancies (Cows) :	9	?
# Dairy Replacement Pregnancies (Heifers) :	30	?
# Dairy Bull Calf Pregnancies (Cows) :	5	?
# Dairy Bull Calf Pregnancies (Heifers) :	14	?
# Beef Calf Pregnancies (Cows) :	28	?
# Beef Calf Pregnancies (Heifers) :	0	?
Replacements Birth Month :	9/2024	?
# Dairy Replacement Births (Cows) :	9	?
# Dairy Replacement Births (Heifers) :	29	?
# Total Replacement Calves :	35	?
# Dairy Bull Calves :	17	?
# Dairy x Beef Calves :	25	?
Replacements Calving Month :	6/2026	?
# Replacements Available :	27	?
# Minimum Monthly Replacements needed :	21	?
# Minimum Monthly Replacements needed including Sales :	32	?
# Shortage/Excess Heifers excluding Sales :	6	?
Revenue from Sale of excess Replacements \$:	\$300.00	?
Revenue from Dairy Bull Calves \$:	\$2,040.00	?
Revenue from Dairy x Beef Calves \$:	\$10,000.00	?
Semen Costs \$:	\$3,698.00	?
Net Revenue Selling Replacements and Calves \$:	\$8,642.00	?

Interested in using Herd HQ? Email Amy Loeschke at AmyL@mndhia.org. Please include your herd code, contact name and phone number. Amy can then grant you access.
