Dairy Comp LS

Comprehensive Management Program for Dairies under 400 cows (Limited Size)

❖ All the features of the full Dairy Comp 305 but at a discounted price for herds under 400 cows.
❖ Six screens of information per animal, including past lactations, DHI test data and individual cow lactation curves, with the option to add a 7th screen with notes, animal photo, and PDF Pedigree file.
❖ Comes with many standard features but is very customizable to the specific needs of your dairy.
❖ Setup custom AI Synchronization programs, Vaccination protocols, and Foot Trim Schedules.
❖ Herd health features such as producing vet lists, entering diseases, and analyzing reoccurrences.
❖ Manage hospital cows – treatment protocols, treatment status, milk and beef withhold dates.
❖ DHIA Test information imports directly into DC305, including Johne's and Milk Pregnancy results.
❖ Interfaces with Parlor and Activity Monitoring programs for data transfer. *
❖ Daily task scheduler set to automatically print reports when needed.
❖ Analyze reproductive data based on sires, studs, technicians, breeding codes, or day of the week.
❖ Guided Module for monitoring and analyzing aspects such as Reproduction, Fresh Cows, Production, Somatic Cell Counts, Parlor performance, and Replacements.
❖ Information is available for consultants upon herd owner's request.
❖ Monitor bulk tank SCC based on herd and individual cow basis.
❖ Track your own semen inventory (track bull ID, tank ID, cost, # units).
❖ AI Sire and Service Sire proofs and analysis features. Import Matings Files.
❖ Cow information and management reports can be posted to and from Windows Mobile or Android devices with Pocket Cow Card (Additional fees apply for Pocket Cow Card Read Only, Read/Write, and Read/Write/Scan licensing).
