#### Ways of improving roadway safety:

##### SAFETY CHECKLIST

- Is your equipment labeled with slow moving vehicle (SMV) emblems that are in good condition?
- Are all of your lights fully functioning and visible? Do you perform pre-travel checks?
- Is your equipment outlined with reflective equipment to mark the wide points?
- Are you keeping lights on whenever you're on the road, including during the day?
- Are you trying to travel during daylight, or using only lit equipment at night?
- Are you always using turn signals?
- Are your employees trained for farm equipment safety on public roads?
- Are you keeping an eye on cars behind you? It may be helpful to pull over for cars to pass when it's safe.
