Updating your Program

Be sure to update your Scout Program. This will eliminate an expiration alert and extend your program date to the correct expiration. To update your program, go to the HELP menu-Check for Updates. You may be prompted to update JAVA at this time-go ahead and do that update first. Once JAVA is done updating you will need to go back into Scout-HELP-Check for updates to proceed with your Scout update. To verify your update you can check under HELP-About and look at your release date

DairyComp 305™ ©2018 VAS
Release 07 Nov 2018 11:52 X

Utilize Remote Support, if you are on a support plan-remote support is covered. It can eliminate misunderstandings on both ends. Team viewer is a great program that is easy to use.

Inventory Reports

To run these reports, you must run them from the command line on the cow card. To get an inventory of the past month:

ECON\IM

Helpful Tips:

Growing your herd size?

If your herd has grown to well over 200 cows and you are looking for more reports and options, Dairy Comp can provide additional features that Scout does not.

							Inventory as of Nov 2018
Category Sex/Use	11/ 1/18	NewIn	<==	Left	==>	12/ 1/18	Average
0-1 M. Female	31	11	0	0	15	27	28.6

<u>Crossbreeding</u>

As the interest increases, it is important to get the proper NAAB code recorded when entering breedings. Using a two digit NAAB code is recommended, especially for those breeds that begin with the same letter.
