Minnesota DHIA News

A PUBLICATION OF MINNESOTA DHIA

Volume 23 Issue 9

SEPTEMBER 2023

DHIA Scholarship Application Now Available

Applications are due by October 31, 2023
The application and guidelines are available by visiting mndhia.org

World Dairy Expo Bound?

Dairy Records Management Systems is releasing the new Herd HQ Web app. Stop in at booth 3738 on the main concourse of the Coliseum to see a demonstration and sign up for free access to this data innovation through the end of this year.

Features include:

- Milk Metrics which enables a host of benchmarking options
- Activity Alerts which monitors significant changes to your data from the last sample day and sends alerts to your smart phone
- Cow Compass lets you look in depth at individual cows and predict which direction she is headed
- Heifer Hub gives you a look into the future and includes many financial calculations
- Keep or Beef lets you look at cost and returns if you increase the amount of sexed semen, beef semen, or conventional semen

Some of the largest companies in our industry are anxious to start working with you using Herd HQ. Stop in and check it out at the DRMS booth #3738 in the Coliseum!

Take a Closer Look at your Lactation Report (312)

The ME\$ Value applies the USDA Dollar Value formula to a cow's 305ME values for milk, butterfat, and protein. This replaced ME Milk on your Lactation report to include quality, fat, and protein for a more valuable comparison. It also takes into account the lactation average SCC. We call it ME\$ because it allows you to look at and compare all cows on their economic value as mature animals.

ME\$	Prod Index	Remarks
3068	75	
3396	83	Х
4156	102	
3055	75	Х
4823	118	х
		V

In the example to the right, the top cow has a Production Index of 75. She is 25% below the average cow.

Manure Testing available at the DHIA Lab!

Manure management plans depend on the nutrient content of your animal waste product. Centre Labs, Minnesota DHIA's Lab in Sauk Centre, is a certified lab facility that can analyze animal waste for its nutrient values. Free, postage paid, testing kits are available from Centre Labs. Contact the lab at 763.233.7866 for free shipping supplies.

Trusted, timely results:

- Solid or liquid manure analysis for integration into farm management and regulatory compliance programs
- Certified by the Minnesota Department of Agriculture
- Testing kits include container, sampling instructions, lab information form, and postage paid return package.
 - Results will be provided in a few business days.

Available Analysis:

Basic Package: \$31.00

Moisture, Nitrogen, Phosphorus, Potassium

Expanded Package: \$39.00

Moisture, Nitrogen, Phosphorus, Potassium, Organic Nitrogen

Micronutrient Package: \$54.00

Nitrogen, Phosphorus, Potassium, Organic Nitrogen, Calcium, Copper, Iron, Magnesium, Manganese, Sodium, Sulfur, Zinc

Carbon Nitrogen Ratio: \$11.00

For composting purposes

Minnesota Farm and Rural Helpline Text: FARMSTRESS to 89821

Email: farmstress@state.mn.us

Iowa State University and Danish researchers agree that you improve your chances of identifying cows with

Johne's Disease by testing them early in lactation. The DHIA Johne's Milk testing program allows you to select those cows automatically on each sample day. Catch them before you breed them! Milk ELISA from Minnesota DHIA – 528,000 cows tested and counting.

Which cows should I test for Johnes?

- Low Milk Production
- Early Days in Milk (by 2nd DHIA Test day)
- High SCC
- Low Milk Protein

View your reports at your convenience!

Web Reports, which allows you to access your regularly ordered reports online, is the same valuable service with a new updated look. **The link is available at mndhia.org.**

~First Time Users~

- -To Login: Username Herdcode, Password Release Code (Call 800-827-3442 to get code)
- -You will need to click "Subscribe"
- -Click on the Web Reports Tab in the middle of your screen and select enroll in Web Reports.
- -Then re-click the Reports & Data Tools and you can view your reports online.

Harvest is Right Around the Corner!

Please remember with the rush of harvest comes the importance of farm safety. According to the U.S. Agriculture Fatality Statistics, more than 150,000 farm workers were injured on the job between 1992 and 2002. This figure has remained fairly consistent in more recent years and has even increased periodically. Here are a few harvest safety tips to keep in mind:

- 1. While operating tractors and other farm equipment, be very cautious on rural roadways. Look for oncoming cars while making wide turns.
- 2. Watch out for power lines.
- 3. Ensure your equipment has roll over protection such as seat belts and roll over protection structures
- 4. Be sure to do regular maintenance and safety checks on tractors and equipment. Check the steps and platform regularly, keep up-to-date with routine maintenance and replace damaged and worn out parts.
- 5. If you have employees or your children are helping, make sure they take all the necessary precautions as well!
